

Alaska Airlines is one of the most respected names in aviation. Our shared commitment to the communities and people we serve has been recognized nationally and internationally with "best carrier" awards from an array of consumers, ranging from readers of Travel & Leisure and Conde Nast Traveler, to the editors of Air Transport World, to frequent flyers polled by Zagat, J.D. Powers, USA Today, and others. But this didn't happen overnight, and it didn't happen by accident. Our proud story has been more than 75 years in the making and over those years one thing has separated Alaska Airlines from the rest. We call it the "Alaska Spirit."

"Alaska Spirit" is the heart of Alaska Airlines. It springs from the rich heritage as a pioneer in a state where aviation plays a vital role in the life of every resident. Throughout our system, the Alaska Spirit defines the unique character of our employees. Our fun loving, energetic, and adventurous personality flows from this spirit, as does our belief in service and community involvement. From our Alaska Spirit comes the pride, passion, and perseverance that sets us apart and nurtures the valued relationships we enjoy with each other and with our customers.

Position Title: Aircraft Mechanic

Company: Horizon Air (Alaska Airlines)

**Location: Medford, OR
 Portland, OR**

HORIZON AIR STORY

Horizon Air: behind the name are men and women with a "can-do" spirit and a passion for excellence. Launched in 1981, Horizon Air provides service to cities throughout California, Oregon, Washington, Idaho, Montana, Nevada, Baja California Sur (Mexico), and British Columbia and Alberta (Canada). Together, Horizon Air and sister carrier Alaska Airlines serve more than 90 cities and are subsidiaries of Alaska Air Group Inc. (NYSE:ALK).

It's a heartfelt approach, as much as technological innovations and customer-pleasing onboard service, that is at the core of the "Horizon experience". This has brought us national and international recognition: Horizon Air was named "Regional Airline of the Year" by Air Transport World magazine in 2007 and was also ranked among the top 10 domestic single-class airlines by Travel+Leisure magazine readers from 2002 through 2009.
