## Employment Opportunity

# Jet Aircraft Maintenance Lead Technician

Martin Aviation at John Wayne Airport (KSNA) in Southern California has been offering aircraft maintenance services for nearly 95 years. As an FAA Certificated PART 145 Repair Station (**M8VR406N**) and Pilatus PC-12 Satellite Service Center, we have a broad area of expertise that allows us to work on a wide variety of aircraft, ranging from Learjet and Falcon Jet to Gulfstream and Global Express. We are looking to add to the strength of our technical team by hiring additional full-time certified Aircraft Maintenance Technicians (A&P).

### **REQUIREMENTS:**

- A&P Certificate: current and in good standing
- Current Driver's license
- Pre-employment drug and alcohol test and background check
- 10+ years experience with business jet aircraft similar to Falcon 900/2000, Challenger 601/604, multiple Citation series or King Air series aircraft
- Must have own tools

### **ESSENTIAL FUNCTIONS:**

- Ability to carry out work assignments with little to no supervision
- Perform aircraft inspections, repairs, line maintenance, and AOG maintenance as needed
- Perform maintenance tasks in accordance with FAA regulations, company policies and manufacturer recommendations
- Ensure company equipment and facility are used properly and maintained in good working order
- Perform duties assigned by the Director of Maintenance
- Ensure that all documents and maintenance procedures are accurate and completed in accordance with company and government regulations

### **DESIRED QUALITIES:**

- Self-motivated and disciplined
- Team Oriented
- Accountable with ownership attitude
- Factory or formal training with Falcon 900 or Bombardier Challenger aircraft a plus

Starting salary range \$80-\$87K per year, based on experience and performance. Martin Aviation offers medical, dental and vision benefits in addition to 401(k). Paid sick leave and vacation. If you are interested in becoming an essential member of the Martin Aviation team, please email your resume and salary requirements in a PDF format to:
