

StandardAero is one of the largest independent MRO and aviation service businesses in the world, providing comprehensive services to commercial, military, business aviation, helicopters and industrial operators. Over 300 years of collective experience brings customers unique knowledge and expertise in solving maintenance challenges.

The company has over 3,700 employees working out of facilities strategically located in the U.S., Canada, Europe, Asia and Australia and serving customers from over 80 different countries.

### **Avionics Technician (LAX)**

**Job Number: 1198-10**

The Avionics Technician troubleshoots and repairs (or sends out for repair) avionics systems that are malfunctioning in customer aircraft, and installs avionics systems and components. Directly and openly communicates with customers regarding the status and time frame of repairs. The Avionics Technician uses sound judgment and technical aptitude to make decisions regarding installation, troubleshooting, and discrepancy resolution. The Avionics Technician is technically competent and is expected to be able to accomplish most of his/her duties with minimal supervision. As customers are on site at the facilities, professional appearance and communication skills are required in order to create a positive and lasting professional relationship.

### **Responsibilities**

- Troubleshoots and repairs Flight Management Systems (FMS,) Satcom and Airborne Radio Telephone Systems, EGPWS/TAWS, communications, navigation, radar, TCAS/XPDR, DME, autopilot/flight director, audio, ADF, Cabin Management/In-flight Entertainment (IFE), and other sophisticated avionics/electronics systems.
- Installs avionics systems on customer aircraft.
- Provides emergency power supply battery service for customer aircraft in-house.
- Maintains continuous communication with customers regarding the status of avionics work on their aircraft.
- Uses electrical hand tools, testing equipment, and soldering equipment.
- Documents all work accomplished (a.k.a. sign-off) in a clear, concise and accurate manner.
- Works fair share of overtime and travels to customer locations or other Standard Aero facilities as required.
- Responsible for knowing, understanding, following, promoting and continuously improving company policies and procedures.
- Observes all safety, environmental and general housekeeping rules and policies.
- May perform other duties as required by the department.

**Requirements**

- High school diploma or equivalent.
- FCC license.
- A&P license preferred.
- Formal avionics systems and electronics education/training.
- 3 to 5 years of experience in electronics and/or avionics in the aviation industry or military equivalent.

**Other****To Apply**

Please send us a copy of your resume, along with a cover letter stating the position you are interested. To apply for this position, the subject line of your email must indicate “Job Title: Avionics Technician (Job #: 1198-10)”. Additionally, please include your salary expectations/requirements in the body of the email. Email: [Careers.LosAngeles@Standardaero.com](mailto:Careers.LosAngeles@Standardaero.com)
